# ABDULLAH MOHAMED

Raleigh, NC | 919-438-9482 | abdallah.businessprofile@gmail.com
**PORTFOLIO: abdulmportifolio.com | GITHUB: github.com/abdul27c**

## PROFESSIONAL SUMMARY

Early-career technical professional with hands-on experience troubleshooting customer issues, supporting technology-enabled operations, and building Python-based projects. Comfortable with Linux and command-line tools, technical documentation, and explaining solutions clearly. Interested in technical support, IT operations, software support, cloud, and cybersecurity opportunities.

## TECHNICAL SKILLS

**Technical Support:** Troubleshooting, issue resolution, customer support, technical documentation
**Programming & Tools:** Python, Java fundamentals, Bash fundamentals, Git, GitHub
**Systems & Cloud:** Linux, macOS and Windows command line, AWS fundamentals, AWS Cloud Quest
**Technical Foundations:** Networking fundamentals, data validation, API concepts, testing fundamentals

## PROFESSIONAL EXPERIENCE

**Alclear LLC — RDU International Airport** | Nov 2025 – Present
**Sales & Customer Service Representative**

- Resolve customer issues and explain solutions clearly in a fast-paced, time-sensitive environment.
- Manage multiple requests while maintaining accuracy, professionalism, and attention to detail.
- Use company systems to process requests, support daily operations, and escalate complex issues through established procedures.

## TECHNICAL PROJECT

**Cloud Cost Intelligence & Optimization Platform** | Independent Software / Cloud Engineering Project

- Built a Python analysis workflow that validates billing records, summarizes spending, and flags unusual cost increases in synthetic sample data.
- Developed a FastAPI backend and React/TypeScript dashboard to present cost summaries and investigation leads.
- Implemented change-event correlation to help prioritize investigation; documented that correlations are leads, not proof of causation.
- Added automated tests for analysis and correlation logic, and documented architecture, setup, and current limitations.

**Technologies:** Python, FastAPI, React, TypeScript, pytest, Git, GitHub

## EDUCATION

**North Carolina State University** | B.S. in Computer Science | Expected 2029
